

# PALRING Anti Insect Net Type: 50mesh

- Blocks penetration of insects and protects against pests as Thrips.
- To be used in cultivation of flowers and vegetables in shade houses, greenhouses, tunnels and nurseries.
- The net is made of monofilaments (HDPE) that are manufactured with special UV-resistant materials, giving the net durability and longevity.
- It has strong tucked selvages, and is flexible, light, and easy to spread.
