

## PALRING NET ANTI HAIL 10%

- Woven net, Lino type, monofilament, made by HDPE and special UV resistance additives.
- The net is used for hail protection in orchards, vineyards, vegetables and any other crops.
- Reduce the sun radiation, the power of the wind and enable better growth.
- Flexible, light weight but very strong due to the structure of the weaving. <sup>9</sup>
- Including special package of UV additives that gives long life of 5 years and more in sun radiation environment.
- Reinforced weaving in both edges and center. Easy installation.

### Technical Specifications

Parameter	Unit	Results
Weight	gsm	60 ±5 %
Width	cm	Up to 525cm without sewing
Weaving density	Tapes per inch	16 x 10
Color		Transparent
Raw material		HDPE & UV additives
Shading	%	10%
Packaging		Rolls
Life time		5 year and more

The test data is based on an average taken over several productions runs and should not be considered or interpreted as minimum or maximum values. Values are typical data and not limiting specifications
